

WFN Teaching Center and Mohamed V Souissi University One-Year Visiting Fellow Program

The World Federation of Neurology (WFN) and the Department of Neurology of Mohamed V Souissi University, Rabat, Morocco are delighted to announce a one-year Visiting Fellow Program for newly trained Neurologists in Africa.

The Department of Neurology of Mohamed V Souissi University is a WFN Accredited Teaching Center.

The World Federation of Neurology (WFN) has 117 member societies and aims to foster brain health worldwide, working in partnership with the World Health Organisation (WHO) amongst others.

Project description:

Mohamed V Souissi University would like to support the African Initiative of the WFN by inviting an African colleague to participate in a one-year training course in Clinical Neurophysiology. The purpose is to experience the modern Moroccan medical system in an international environment, meet new colleagues and foster future cooperation.

The training course in Clinical Neurophysiology at the Mohamed V Souissi University Department of Neurology will include Electromyography, Electroencephalography, Epilepsy, Neuropathy and Muscle Diseases. Teaching will be conducted in French.

Timeframe

The visit will take place for one academic year from September 2014 to June 2015.

Details about support

The visiting fellow will receive the following support:

- Reimbursement for one economy flight from the Fellow's country of residence to Rabat and the return journey.
- Reimbursement of Accommodation for the academic year.
- A monthly allowance for living expenses (food and beverage) during the academic year.
- Costs of health insurance and insurance for medical activity during the stay in Morocco (to be arranged by the applicant, the costs will be refunded).
- Please note that support is provided for the visiting fellow only, and does not include family or dependents. WFN is not responsible for financial issues other than related to the project.

Criteria for applications:

- The applicant must be a resident of a low or lower-middle income country from the African continent
- The applicant must be born after 31.12.1974
- The applicant must have recently completed his/ her neurology training and be ranked 1st in his/ her final evaluation of the last year of neurology training.
