

# Rare causes of stroke- recognition and treatment

**Hugh Markus**

UNIVERSITY OF  
CAMBRIDGE

# Disclosures

- None

# Learning objectives

- To be able to appreciate the most common monogenic types of stroke
- To understand when and how to screen for monogenic causes of stroke
- To understand which clinical and radiological features suggest a diagnosis of monogenic stroke
- To understand how to treat monogenic stroke

# Key message

Although relatively rare monogenic causes of stroke are important to patients

- A diagnosis can be helpful
- It allows information on prognosis
- Sometimes it allows specific treatments to be given
- It allows predictive family counselling
- It allows pre-natal testing
