

A YOUNG NEUROLOGIST'S PERSPECTIVE ON NEUROLOGIC EDUCATION

Vanessa Carvalho
Hospital Santa Maria/Centro Hospitalar Universitário Lisboa Norte
Lisbon, Portugal
fvs.carvalho@gmail.com

Disclosures

- Speaking fees from Bial in the past year.
- Worked with the Resident and Research Fellow Section Office of the EAN during 2018-2023.
- Working with the Young Neurologists Subcommittee of the WFN since 2022.

Lecture goals

- To discuss the current heterogeneity of neurology education worldwide
- To address relevant topics to neurologic education at a pre- and post-graduate level
 - Neurophobia
 - Sustainable health education
 - Brain Health
 - The clinician-scientist pathway

Key messages

- Neurology is perceived as difficult topic by almost everyone but neurologists – **we need to demystify neurology.**
- **Huge diversity** in Neurology training across the world – we need to guarantee a basic level of training for people dealing with people with neurological disorders.
- We need to start including neuroepidemiology and environmental aspects in medicine and medical education.
