

1 Continuum

Continuum is an AAN postgraduate program. This highly successful educational program is made available for 45 countries through a collaboration of the AAN and WFN.

The program is delivered by hard copies or electronically. WFN coordinators arrange for neurologists to meet and discuss the content of these publications. The WFN provides certification upon completion of courses.

Contact: helenme.gallagher@virgin.net

2 Teaching Courses

The WFN has biennial World Congresses. These provide many educational activities and the WFN Teaching Courses are an important aspect.

The spectrum ranges from free teaching courses, trainee and advanced level courses, hands on courses and also includes topics such as advocacy, training and education.

Educational programs of the WFN

► What is the WFN?

The World Federation of Neurology represents 117 member societies around the world. It is a UK based charity, aiming to improve neurology services worldwide.

► WFN office and governance

The office is based in London, UK in Fulham Green. It is administered by the President and elected trustees.

WFN Education Programs

The WFN offers a range of educational programs

JOIN AND PARTICIPATE

3 International Teaching Courses

The WFN participates jointly with the EAN and other societies in yearly teaching courses in Africa. Topics are chosen by the participants and the distribution of knowledge as well as the enthusiasm is enormous.

The list of TC is long, please look at the website for information.

www.wfneurology.org

4 WFN Teaching Centers

The WFN Teaching Centers fulfill the mission to train neurologists in local regions.

To qualify as a WFN Teaching Center, a center has to undergo an evaluation, a visit of the education committee and a detailed description of its activities. At present, Rabat and Cairo are WFN Teaching Centers, and Senegal and Cape Town are in the process of application.

Trainees are supported by the WFN in Fellowship and training programs at these Teaching Centers.

5 Departmental visits

The WFN in cooperation with Turkey, Austria and Norway Societies finance departmental visits for a duration of 4 - 6 weeks. The program is expanding to more locations.

6 Grants

Do you have an educational project which might be of value in your region? Do you have a project which would facilitate neurological education?

The WFN offers yearly grants.

7 Publications

The WFN has several publication such as World Neurology, the Journal of Neurological Sciences (2 free down-load articles each issue) and the open access eNeurologicalSci.

And we have the website and social media.

All our educational activities are on our website and social media. **Join!**

All of the WFN educational activities are announced on our website and through social media.
